VAYU™

FOR THE UNSTOPPABLE YOU

Introducing VAYU

A reliable air compressor for real work.

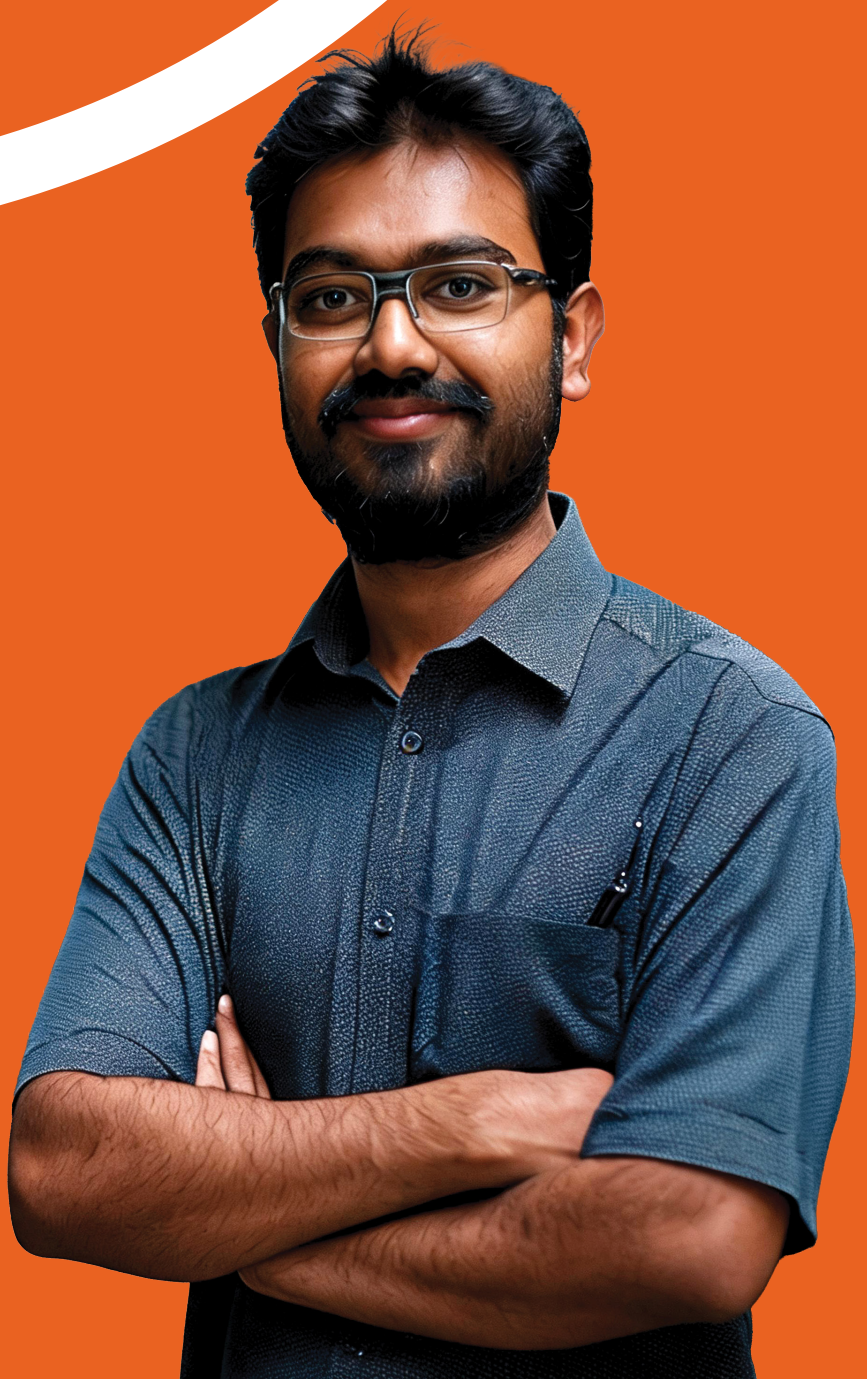

MADE IN INDIA READY FOR THE WORLD

VAYU™

BUILT FOR THOSE WHO KEEP GOING

Made in India.
Ready for the World.
For the Unstoppable You.

Every manufacturing business starts with a vision. A workshop grows into a factory. Orders become larger. Production becomes faster. With every milestone comes a greater responsibility to deliver on time and keep operations moving.

We understand that every manufacturer, no matter where they operate, depends on compressed air that performs reliably every day. That's why we have built VAYU in India with engineering that's ready to meet the demands of industries around the world.

WHY CHOOSE VAYU?

Every investment should create clear value where it matters most: on your factory floor. VAYU combines dependable engineering, practical ownership, and responsive support to help manufacturers improve productivity while keeping operating costs firmly under control.

Made in India. Ready for the World.

Built for demanding manufacturing conditions, be it in India or around the world, we deliver dependable compressed air through robust construction and stable air delivery.

Built for Easy Ownership

Competitive pricing and straightforward maintenance deliver lasting value throughout the machine's life.

Simple Usability

An intuitive controller simplifies monitoring and keeps operators focused on output.

Service That Stays Close

Responsive support helps minimise downtime and keep production moving.

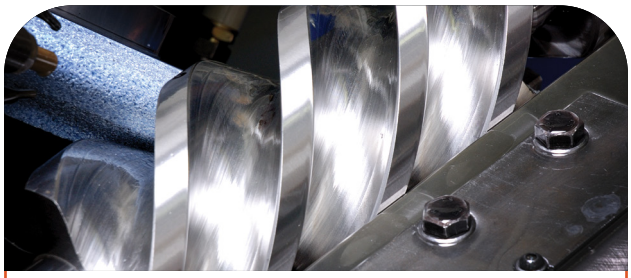

Warranty That Builds Confidence

1 YEAR WARRANTY	3 YEAR WARRANTY
On Compressor & Accessories	On Motor & Airend

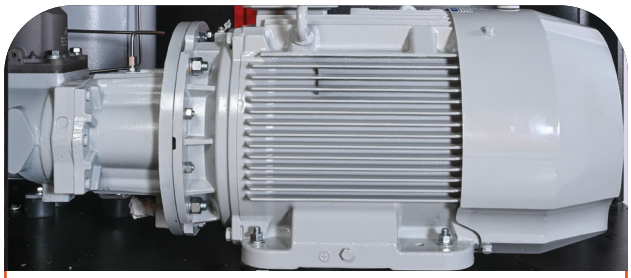

INSIDE EVERY VAYU COMPRESSOR

Every VAYU compressor combines proven components engineered for reliable airflow, efficient performance and long service life. Each subsystem is built for demanding factory conditions, helping simplify operation, maintenance and ownership.

High-Performance Airend

A world-renowned air end engineered for durability and optimised airflow.

High-Efficiency Motor

An IE3, Class F motor with IP65 protection, VPI coating and synthetic grease, designed around the compressor's operating requirements.

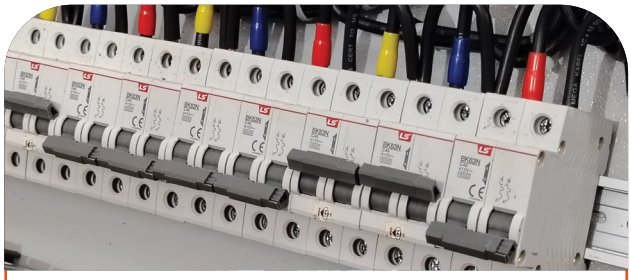

Advanced Separation System

Three-stage impact, centrifugal and coalescing separation with an optimised, low-pressure-drop flow path.

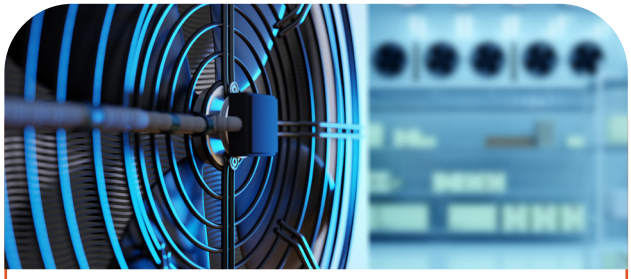

Intelligent Controller

A simple interface with real-time monitoring, fault diagnostics, fail-safe protection and intelligent controls.

Industrial Grade Electrical Panel

Industrial-grade components, integrated safety systems and effective thermal management support reliable operation.

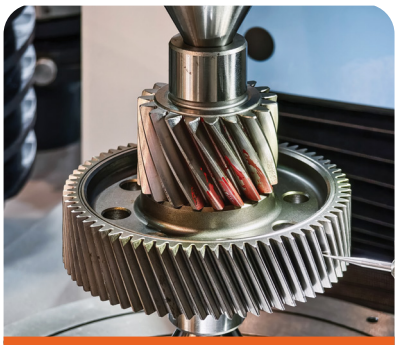

Reliable Cooling Performance

Efficient heat dissipation for consistent operating temperatures and compressor performance.

BUILT FOR DIVERSE MANUFACTURING APPLICATIONS

Proudly made in India for the world, VAYU is built for unstoppable manufacturing entrepreneurs like you, by delivering dependable compressed air that keeps your operations moving and your ambitions growing.

GENERAL ENGINEERING

AND MANY MORE...

A COMPLETE AIR SYSTEM BUILT AROUND YOUR WORK

Reliable compressed air depends on every part of the system working together. VAYU compressors can be paired with air receivers, refrigerated air dryers and industrial line filters to help maintain stable air supply, reduce moisture and protect downstream equipment.

Tank Mounted Compressors

Dryers

Receivers

Filters

Base Mounted Compressors

CHOOSE THE RIGHT VAYU FOR YOUR FACTORY

Every factory has different airflow, pressure and operating requirements. Explore the VAYU range to find the oil-lubricated screw compressor that best fits your application and keeps your work moving.

FIXED-SPEED COMPRESSORS | Built for applications with consistent air demand across everyday manufacturing operations.

VARIABLE SPEED COMPRESSORS | Designed for manufacturing environments with varying air demand to help optimise energy use.

Technical Specifications

Model*	Power (kW)	Pressure (bar g)	Flow (CFM)	Flow at Minimum Speed (VFD)	Noise (+/-3dBA)	Weight (kg)	Air Outlet (BSP)	L X B X H (mm)
SL 5	5	7 | 8 | 9.5	23.5 | 23 | 20	8.5 | 8.3 | 8	65	180	G ¾"	875 × 650 × 760
SL 7	7	7 | 8 | 9.5 | 12.5	40 | 38 | 27 | 24	16 | 15 | 11 | 10	65	215	G ¾"	875 × 650 × 760
SL 11	11	7 | 8 | 9.5 | 12.5	68 | 64 | 55 | 43	27 | 27 | 21 | 17	74	365	G 1"	1170 × 780 × 965
SL 15	15	7 | 8 | 9.5 | 12.5	85 | 80 | 68 | 58	32 | 30 | 23 | 18	74	380	G 1"	1170 × 780 × 965
SL 18	18	7 | 8 | 9.5 | 12.5	111 | 104 | 91 | 65	40 | 36 | 33 | 26	76	395	G 1"	1170 × 780 × 965
SL 22	22	7 | 8 | 9.5 | 12.5	130 | 127 | 104 | 83	48 | 45 | 42 | 32	76	415	G 1"	1170 × 780 × 965
SL 30	30	7 | 8 | 9.5 | 12.5	179 | 163 | 141 | 125	69 | 62 | 56 | 50	76	590	G 1-1¼"	1500 × 950 × 1200
SL 37	37	7 | 8 | 9.5 | 12.5	230 | 222 | 187 | 154	90 | 85 | 75 | 62	76	670	G 1-1¼"	1500 × 950 × 1200
SL 45	45	7 | 8 | 9.5 | 12.5	280 | 265 | 234 | 185	112 | 106 | 94 | 74	76	830	G 1-1¼"	1500 × 950 × 1200

*Add "V" to the model for VFD. Tank mounted options - 270L & 500L for 5-7kW ; 500L for 11-22 kW.

SL 22

COMPRESSED AIR ACCESSORIES

Cleaner, drier compressed air starts with the right accessories

REFRIGERATED AIR DRYERS:
26 to 300 CFM

AIR RECEIVERS:
500 and 1,000-litre capacities

DOWNSTREAM FILTERS:
29 to 281 CFM

DOWNSTREAM FILTERS

Built to keep performance moving forward, VAYU line filters deliver efficient filtration with low pressure drop, protecting downstream equipment at pressures up to **16 bar.**

Types of Filter Grades

Filter Type	Particle Removal (micron)	Max. Oil Carry-over (mg/m³)	Max. Inlet Air Temperature	Recommended Element Replacement
FP – Pre Filter	1	0.1	80°C	3000 Hours or 1 Year whichever is earlier
FF – Fine Filter	0.1	0.01	80°C	
FC – Activated Carbon Filter	—	0.003	50°C	6 months

Note: Assemble the Filters in sequence (FP->FF->FC) to achieve the air quality

Technical Specification

Model	End Connection (BSP inch)	Flow Rate @ 7 bar (CFM)	A (mm)	B (mm)	H (mm)	Max. Operating Pressure (bar)
FP/FF/FC 29	1/4"	29	87	80	179	16
FP/FF/FC 41	3/8"	41	87	80	179	16
FP/FF/FC 68	1/2"	68	87	80	249	16
FP/FF/FC 112	3/4"	112	121	130	285	16
FP/FF/FC 181	1"	181	121	130	385	16
FP/FF/FC 281	1-1/2"	281	121	130	485	16

FP/FF/FC 68

FP/FF/FC 29

FP/FF/FC 276

REFRIGERATED AIR DRYERS

Deliver clean, dry compressed air while maintaining reliable dew point performance and low operating losses.

Technical Specifications*

Model	Inlet Flow (CFM)	Weight (kg)	Inlet / Outlet (BSP)	Dimensions L X B X H (mm)
DR 25	26	40	1/2"	387 X 581 X 499
DR 40	40	45	1/2"	475 X 580 X 500
DR 70	68	50	1"	430 X 600 X 560
DR 85	85	50	1"	430 X 600 X 560
DR 130	130	60	1-1/4"	416 X 332 X 1295
DR 180	179	70	1-1/4"	416 X 350 X 1320
DR 230	230	90	1-1/4"	500 X 405 X 1500
DR 280	280	90	1-1/4"	500 X 405 X 1500
DR 300	300	110	1-1/2"	600 X 454 X 1496

*Electrical supply is 230 V / 1 Ph / 50 Hz for all models except DR 300, which requires 400 V / 3 Ph / 50 Hz.

*Maximum working pressure is up to **16 bar**

Note: Pre-filter is recommended at the dryer inlet

DR 300

VERTICAL AIR RECEIVERS

Built for safe compressed air storage with robust construction that complies with IS 2825 design standards.*

Technical Specifications

Model	Capacity	Max. Working Pressure (bar)	End Connection	Dimensions		Shell Thickness (mm)	Dish Thickness (mm)	Weight Approx. (kg)
				Height (mm)	Diameter (mm)			
TA 500-10	500 L	10	1-1/2" NPT	2110	600	5	5	190
TA 500-12.5	500 L	12.5	1-1/2" NPT	2060	622	6	6	225
TA 1000-10	1000 L	10	2" NPT	2750	750	6	8	355
TA 1000-12.5	1000 L	12.5	2" NPT	2750	750	8	8	436

*Applicable to shell and dish thickness calculations only.

Note : Due to continuous engineering improvements, all the specifications mentioned in this document are subject to change without prior notice.

SERVICE THAT STAYS CLOSE

PERIODIC SERVICE & MAINTENANCE

Our factory-trained service engineers, backed by a dedicated Customer Care System, help maximise uptime throughout the life of your compressor.

- Pan-India Service
- Dedicated Customer Care
- Preventive Maintenance & Inspection
- Equipment Service History

GENUINE PARTS & EMERGENCY ASSISTANCE

Fast access to genuine parts and responsive support that helps restore operations quickly.

- Genuine Spare Parts
- Dealer-Ready Service Kits
- Breakdown Support
- AMC Support
